

24 March 1969

Dr. Robert K. Holz  
Associate Professor  
Department of Geography  
The University of Texas at Austin  
Austin, Texas 78712

Dear Professor Holz:

The seven separation plates for the terrain base of Mexico will be delivered to you in the near future by a representative of the Agency. A charge of \$50.00 has been assigned to the set of reproduction materials.

The plates are in positive, including the half tones for the terrain, and are ready for contact printing to negative prior to the preparation of the offset printing plates. The half tones, of course, can not be rephotographed successfully. You may not wish to use all the separation plates but we have included them to give you a full choice. The culture plates may require some updating. Attribution to the Agency will not be required.

Under separate cover, we will mail to you several maps of Mexico that may prove of value as source material. Reproduction plates will not be available for these maps.

It has been a pleasure to supply you with these materials and I trust they will prove useful to you. We are looking forward to seeing the Atlas of Mexico.

Sincerely yours,

(Signed)

JAMES A. BRAMMELL
